

ZAMEER ABBAS

Full Stack Web Developer

Karachi, Pakistan | +92 318 2221812 | abbaszameer234@gmail.com | <https://www.imeer.dev>

PROFESSIONAL SUMMARY

Full Stack Web Developer and final-year Computer Systems Engineering student at Mehran University of Engineering and Technology. Specialises in building scalable, production-ready web applications with React.js, Next.js, Node.js, and MongoDB. Proficient in REST API design, JWT and OAuth authentication, and state management with Context API. Focused on clean, maintainable code and delivering reliable full-stack products from concept to deployment.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Context API, EJS, Responsive Design
Backend	Node.js, Express.js, REST API Development, Middleware Design, Server-Side Architecture
Database	MongoDB, Mongoose, MySQL
Auth & Sec	JWT, OAuth 2.0, Passport.js, bcrypt, Input Validation
Storage	Multer, Cloudinary, Cloudflare R2 (S3-Compatible)
Tools	Git, GitHub, Vercel, VS Code, Nodemailer, Clerk

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

Jun 2024 – Aug 2024

Spark Code Pvt Ltd · Karachi, Pakistan · Paid Internship

- Built and shipped responsive, pixel-perfect web interfaces with Next.js, Tailwind CSS, and TypeScript, translating Figma designs into clean, reusable React components used across multiple product screens.
- Integrated frontend views with backend REST APIs, managing dynamic data rendering and async state with React hooks and Context API.
- Contributed to a production codebase via Git and GitHub, maintaining clean commit history and resolving merge conflicts across feature branches.
- Architected scalable, modular component libraries that reduced UI duplication and accelerated feature delivery across the product.

PROJECTS

MyLocalDrive – Secure Cloud Storage Platform · Next.js, Node.js, MongoDB, Multer, Cloudinary, JWT

- Architected a full-stack cloud storage application with a complete authentication system — register, login, and logout — using JWT and bcrypt for secure, stateless session management.
- Built a full-featured file manager supporting upload, rename, delete, and download, with secure file handling via Multer and persistent cloud storage via Cloudinary.
- Designed a user dashboard with real-time file-usage statistics, giving users clear visibility into storage consumption across file types.
- Applied consistent REST API design principles across all backend routes, ensuring clean separation of concerns and predictable endpoint behaviour.

Wanderlust – Listing & Review Platform · Node.js, Express.js, MongoDB, Passport.js, EJS

- Built a full-stack listing and review platform with complete CRUD operations for property listings, enabling users to create, update, and manage entries end-to-end.
- Implemented authentication and session management with Passport.js, with secure password storage via bcrypt.
- Developed a review and rating system with data validation and integrated third-party location maps for interactive property discovery.
- Structured the Express.js backend with modular routing and middleware architecture, improving maintainability and making the codebase easy to extend.

Business Nexus – Investor & Entrepreneur Platform · React.js, Next.js, Tailwind CSS, Node.js

- Designed and built a responsive networking platform connecting entrepreneurs with investors, with a focus on intuitive user flows and a polished, professional UI.
- Implemented a scalable component architecture with reusable React components, enabling rapid feature iteration and a consistent design language across the application.
- Integrated REST API endpoints for dynamic data rendering, handling async state with React hooks throughout the frontend.

Responsive eCommerce Website · HTML5, CSS3, JavaScript, Tailwind CSS

- Delivered a pixel-perfect, fully responsive eCommerce frontend from a Figma design, ensuring cross-device compatibility across mobile, tablet, and desktop viewports.
- Applied modular frontend architecture and semantic HTML5 for long-term maintainability and accessibility compliance.

EDUCATION

Bachelor of Engineering – Computer Systems Engineering

2022 – 2026

Mehran University of Engineering and Technology, Jamshoro · 8th Semester

ADDITIONAL

Languages English, Urdu, Shina

Soft Skills Problem Solving, Team Collaboration, Adaptability, Continuous Learning
